POLE PRESS

Dear PolePress Community,

Our Ukrainian pole friends have asked for help finding teaching opportunities abroad. Ukraine is one of the leading countries for pole and aerial fitness, with a large number of high-quality instructors who can teach in English.

To help facilitate, we created a website where studio owners can list job opportunities for Ukrainian refugees. If you own a studio — or know someone who does — please think about whether you have any openings, or might be able to create them. You can post the job at this link:

ukraine.polepress.com

If this topic is important to you, we encourage you to share this link with relevant audiences on social media.

#StandWithUkraine,
Team PolePress
